

HUMIC

Soil Conditioner

67.7 % Humic Acid
1.76 % Nitrogen

Humic Acid

Improves soil structure
Stimulates root growth
Increases soil water retention
Delivers nutrients to plants
Reduces N requirements
High Cation Exchange

Live Biology

Beneficial Bacteria
Beneficial Fungi
Breaks down organic matter
Prevents infection & disease
Supplies nutrients to plants

Fixed Carbon

Stabilizes Soil
Increases productivity
Increases plant nutrient uptake
Provides biological fuel
Lowers watering needs
Reduces leaching

Topdress on Turf: Use at a rate of 20 lbs. per 1000 sq.ft
Trees and Shrubs: 2lb. per in d.b.h (diameter/base/height)
Annuals and Perennials: Use at a rate of 4 lbs. per 100 sq.ft
